

Active Directory Security Consultant (m/f) – ID 400101

The Company

Our customer is one of the most successful traditional German companies and operates worldwide with leading brands and technologies in three business areas.

The DAX 30 company is proud of its approximately 50,000 employees worldwide from more than 120 nations and is present in all important growth markets on a global basis.

The high focus on a motivating corporate culture with a balance between the economic goals, the protection of the environment and social responsibility form the basis for sustainable corporate success.

For the European company headquarters in North Rhine-Westphalia, we are looking for a Active Directory Security Consultant (m / f) for the design of our worldwide Directory strategy.

Your Tasks and Responsibilities

- The Active Directory Architecture/Security Specialist is responsible for the design of our worldwide Directory strategy. This includes technical aspects as well as sourcing and strategic decisions.
- The Specialist will align Security and Business requirements, while consistently following current market trends to ensure our environment is up to date.
- Active Directory Architecture/Security Specialist steers external consultancy resources and works with external partners and specialists to continuously improve our environment. The Specialist discovers areas of improvement and prepares decisions for new project opportunities.
- Market trends and solutions must be assessed to provide possible recommendations for improvements. New market strategies like Cloud computing must be considered and adopted to our business strategy in the sense of Information Security.

Who you are

- University degree in Business Informatics or similar
- Experience working on enterprise Active Directory deployments from a design and architecture perspective
- Expertise in IT security and hardening topics for Windows and other platforms
- Good service skills, including the ability to interact professionally with a diverse group of internal customers and providers
- Good project management skills
- English language skills - excellent written and verbal communication is a must
- Excellent communication skills both verbal and written are required to interface with other employees who are both technical and nontechnical

What we offer

- Excellent opportunities for professional and personal development.
- An exciting position in an international environment.
- Work in a highly motivated, committed and open-minded team.
