

Design Engineer (m/f) – ID 500100

The Company

Our customer is a global market leader based in Austria and has production sites in all major markets as well as a worldwide network of sales and marketing offices. The range of produced products ranges from fiber pulp through standard fibers to innovative specialty fibers. Our customer supplies the global textile and nonwovens industries with high-quality, botanical cellulose fibers. In addition to its core business of fibers, the company also operates in the Engineering and Plant Engineering business segment.

For the area of CAD / CAE Engineering in the Business Unit 'Global Fiber Engineering' we are looking for a Design Engineer for Piping & Plant Engineering (m / f) in the area Upper Austria.

Your Tasks and Responsibilities

- Planning of plants and pipelines in 3D with E3D
- Independent preparation of installation concepts for production and process plants in cooperation with the project management
- Preparation of site and pipeline plans, apparatus and vessel master drawings, structural steelwork and foundation drawings as well as isometric drawings in compliance with current standards
- Carrying out necessary calculations in collaboration with internal and external calculation engineers
- Creation of the necessary technical documentation as well as the material procurement documents (parts lists, material extracts) for tenders
- Independent planning and development of projects in the construction including the necessary coordination

Who you are

- In-depth technical training (FH, HTL) in the field of mechanical engineering, process engineering, building technology or comparable
- Several years of experience in the design and planning of process plants or in piping construction
- Excellent computer skills (PDMS / E3D, AutoCAD, Advance Steel, Office)
- Team and communication skills as well as good English skills
- Readiness to train, resilience and flexibility
- Independent, structured and responsible way of working

What we offer

- High esteem and good working atmosphere
- Attractive salary
- Possibilities of personal development
