

Technical Support Manager (m/f) PP/PE products

ID 400105

The Company

Our customer is a uniquely positioned vertically integrated gas processing and petrochemicals company that owns and operates Russia's largest gas processing business and is a leader in the Russian petrochemicals industry.

Our customer operates 26 production sites located all over Russia, has over 1,500 large customers engaged in the energy, chemical, fast moving consumer goods (FMCG), automotive, construction and other industries. The company ships petrochemical products to 60 countries.

We are looking for a Technical Support Manager (m/f) in PP/PE products in Istanbul or Home Office.

Duties

- Work with customers' requirements on the quality of company products and packaging
- Provide technical support to sales managers and customers (for example consultations on properties and application of company products)
- Conduct technical marketing of new products for R&D department
- Provide sales managers and customers with the updated documents of the products
- Manage new products' test at customers' plants
- Work with customer's requests (new product, advanced properties of the product, new packaging etc.)
- Preparation of technical presentation for customers and fairs
- Work together with the production plant on the quality of the products
- Develop recommendations on the processing of the new products for customers

Our requirements

- Degree in Chemistry, Engineering or Polymer Science
- Previous work experience of 5+ years in the polymers industry
- Solid knowledge in polymers production and/or methods of polymers processing
- Experience in statistical analysis of data
- Excellent written and verbal communication and presentation skills
- Responsible, able to create a safe working environment, open to change and interest in self-development.
- Turkish citizenship

What we offer

- Competitive compensation and bonus system
- Individual career development
- Work flexibility (Home office)
