

## Sales Professional (m/f)

ID 400116

### The Company

Our customer is one of the few companies that produce high concentration, inverse emulsion synthetic thickeners for the paint, coating, construction, textile, detergent, adhesive and carpet industry. This special and prestigious product line has enabled our Customer to capture a large market share in the foreign markets.

The current production capacity of 230.000 TPA enables the Company to supply strategic destinations from their key location, which is a natural bridge between Europe and Asia. Therefore, they export their products to more than 50 countries worldwide including Multinational Companies, covering markets in Europe, Asia, Africa, Middle East and Latin America.

Currently, we are looking for a 'Sales Professional (m/f)' based in Europe with home office option.

### Duties

- Market the client's existing range of polymers to Central and Western Europe market.
- Come up with suggestions of potential new products that can be developed at the client's facilities.
- Extensive travelling in Europe may be necessary.

### Our requirements

- Experience in the sales & marketing of water based polymers to the nonwoven industry in Europe.
- Minimum 5 years job experience.
- Candidates with technical background with application experience will be preferred.
- Candidate should have extensive knowledge about the nonwoven industry in Europe (mainly central & western Europe).

## What we offer

- Excellent opportunities for professional and personal development.
- An exciting position in an international environment.
- Work in a highly motivated, committed and open-minded team.
