

## Manager Pulp Production (m/f/d)

ID 400122

### The Company

Our customer is a global company focused on providing dissolving wood pulp, paper pulp, paper-based and biorefinery solutions to its customers in over 150 countries.

Currently, we are looking for a 'Manager Pulp Production (m/f/d)' in Lower Saxony.

### Responsibilities

- Coordination and development of the wood line, fiber line and fresh- & waste water-treatment
- Management of the subordinates and regular reporting to the division manager: Pulp Mill & Utilities
- Budget and consumption control and budget planning
- Optimization of technical and technological processes
- Planning and implementation of maintenance in cooperation with the technical department
- Planning of strategic projects to ensure sustainable profitability and succession planning and organization of the training of new employees
- Ensuring a continuous and proactive coordination process with the interfaces
- Standby duty and compliance with all health, safety and environmental regulations and laws

### Requirements

- University degree: chemistry, process engineering, paper and pulp technology
- Ideally leadership skills and coordination talent
- Strategic thinking and acting with a view to a continuous improvement process
- Fluent in German and English
- Knowledge of SAP, Microsoft Office & Outlook

## What we offer

- Excellent opportunities for professional and personal development.
- An exciting position in an international environment.
- Work in a highly motivated, committed and open-minded team.
