

Global Product Manager - Total Stations (m/f/d)

ID FM06191

The Company

Our customer is a cutting-edge technologies and services provider for the global construction industry segment. It is a great place to bring value and grow your career. Currently they have close to 30000 employees, which they are looking to expand.

Currently, we are looking for a 'Global Product Manager - Total Stations (m/f/d)' in Liechtenstein.

Responsibilities

The product manager role has 3 key aspects

- Manage a defined product portfolio to achieve product and market leadership
- Understand customer needs and consequently specify, develop and introduce new products into the markets
- Support the business developers in the sales organizations to build up competence on total station product portfolio.

Requirements

- Experience in construction industry and/or surveying with total stations
- Demonstrated ability to market and drive business development for technical products like total stations
- Technical degree (+3 years) with additional business education is a plus
- Fluent in English (verbal and written), additional languages are beneficial
- Team player with ability to interact and communicate across different hierarchy levels and cultures

What we offer

- Excellent company culture which stands for an ambitious but caring working environment
- Great opportunities to develop your career with a global player and international innovation driver
- Competitive salary and a wide range of benefits, these may include day care for your kids or a free in-house gym
