

## Strategic Procurement Manager (m/f/d)

ID CB13373

### The Company

Our customer is a leading technology and service provider for the global construction industry segment. It is a great place to add value and grow your career. Currently they have close to 30000 employees, which they are looking to expand.

Currently, we are looking for a 'Strategic Procurement Manager (m/f/d)' in Liechtenstein.

### Responsibilities

- You lead a commodity procurement team on a global level.
- You understand current and future needs and you match them with the development of the commodity procurement strategy.
- Together with your stakeholders you define the game plan to find and effectively work with the best suppliers.
- Your work starts with the strategy of your commodity. It gives you the necessary insights and the fact base.
- It also aligns the projects and actions that you plan to drive to improve performance and productivity.
- Large, international Procurement projects are then in your direct responsibility. You drive the preparation and the execution together with global project teams.

## Requirements

- Relevant university level education with results in upper-quartile.
- Solid professional experience in an international setting.
- Strategic, results-oriented mind-set
- Strong facilitation, negotiation and communication skills
- Conceptual brain work interests you as much as getting down and dirty in documents, spreadsheets and slide decks.
- Analytical and strategic thinking skills as well as hands-on project management and tough negotiation skills.
- You are adept at convincing others, leveraging your knowledge and precise communication skills.
- Fluent in English; German is an advantage.

## What we offer

- Excellent company culture which stands for an ambitious but caring working environment.
- Great opportunities to develop your career with a global player and international innovation driver.
- Competitive salary and a wide range of benefits, these may include day care for your kids or a free in-house gym.
