

Environmental Manager / Coordinator (m / w) Environment / Energy Management - ID RD23819

The Company

Our customer is one of the world's most successful manufacturers of steering systems and a technology leader in the area of solid forming. In this way, they create the technological prerequisites for steer-by-wire, electric mobility or autonomous driving. Together with more than 9,000 employees at 17 locations and the world's most famous car manufacturers, they are putting the future on the road. Passion for the automobile, dynamism, innovation and do-it-mentality - this distinguishes them in their work along with pursuit of highest safety and quality.

Currently, we are looking for an 'Environmental Manager/Coordinator (m/f/d)' in Liechtenstein.

Responsibilities

- You are the contact person and process coordinator for the environmental and energy management system
- and responsible for the development and implementation of global standards for the development of the environmental and energy management system
- You support new locations during implementation in the management system (environment / energy)
- And have the technical leadership for the implementation of environmental protection and energy efficiency projects
- In addition, you take over the task as an internal auditor according to the ISO 14001 / ISO 50001 standards

Requirements

- You have a degree (FH, BA, university etc.) in the field of environmental technology, ecology or comparable education
- You also have expertise in environmental / energy management systems (ISO 14001, ISO 50001) and basic knowledge of IATF 16949, VDA 6.1
- You can prove your good German and English skills daily
- Furthermore, good IT skills, MS Office, Lotus Notes, SAP, etc. are a matter of course for you
- You complete your profile with your willingness to travel (taking care of foreign locations)

What we offer

- Excellent company culture which stands for an ambitious but caring working environment.
- Great opportunities to develop your career with a global player and international innovation driver.
- Competitive salary and a wide range of benefits, these may include safety and healthcare programs or a free in-house gym.
