
Head of Digital Infrastructure - BU Constructions Services (m/f/d)

ID VK08191

The Company

Our customer is a leading technology and service provider for the global construction industry segment. It is a great place to add value and grow your career. Currently they have close to 30000 employees, which they are looking to expand.

Currently, we are looking for a 'Head of Digital Infrastructure - BU Constructions Services (m/f/d)' in Liechtenstein.

Responsibilities

The key objective of this role is to develop a differentiated and relevant offering that increases productivity, competence and safety along the construction value chain. A seamless digital infrastructure plays a vital role to have a substantial impact on customer engagement to make our customer's products the preferred choice.

- This role involves crafting the strategic direction and driving implementation towards a seamless Software and IT infrastructure for Construction Services.
- You will assess existing service processes and identify relevant optimization potential along our offering of engineering & testing services, pre-fabrication and customer trainings.

- Together with global and local stakeholders you will define and align business opportunities and derive detailed requirements.
- While assessing and selecting the ideal solution available on the market or striving to build own capabilities you drive standardization of service processes and aim for a comprehensive and holistic Software and IT ecosystem with full front-end and back-end integration.
- As a partner for the markets you support implementation and constantly monitor utilization and business impact.

Requirements

- 5-10 years relevant experience in B2B business, ideally related to value-added services.
- Track record of successfully managing IT related projects with cross-functional, cross-cultural teams.
- Strong business acumen, conceptual thinking and customer orientation.
- Experience in change management and can-do-attitude.
- Strong team collaboration capability and ability to work within a matrix organization.
- Willingness to travel internationally for business and international mobility in the long term is preferable.
- Excellent communication and presentation skills on top-management level, therefore English is a must.

What we offer

- Excellent company culture which stands for an ambitious but caring working environment
- Great opportunities to develop your career with a global player and international innovation driver
- Competitive salary and a wide range of benefits, these may include day care for your kids or a free in-house gym
