

Senior R&D Manager - Advanced Ceramic Materials (m/f/d)

ID 200192

The Company

Our customer is a company with a very long history in the chemical industry sector. The company develops and manufactures materials for various industry segments. A high focus on innovation, a global market mentality and a high customer focus are the foundation for the long-term success.

Currently, we are looking for a “Senior R&D Manager - Advanced Ceramic Materials (m/f/d)” at one of our customer’s locations in Austria.

Responsibilities

- Leading and managing a team of ~20 R&D engineers and technicians
- Preparing and implementing new product development roadmap
- Cost and budget management
- Transferring new products to production
- Patent management

Your profile

- A profound knowledge of advanced ceramics
- University degree (minimum) in the field of material science or inorganic chemistry
- Proven management and leadership skills
- Relevant experience in advanced ceramic materials or related field
- Track record in preparing strategy and technical roadmaps
- Strong networking skills
- Excellent English (written/spoken)

What we offer

- Excellent opportunities for professional and personal development
- An exciting position in an international environment
- Work in a highly motivated, committed and open-minded team
- A competitive compensation package

Become part of a successful company and apply now via ChemRecs for this position!

Please submit your application documents, including your availability and salary, by e-mail to jobs@chemrecs.de.
