

## Senior Global IT Process Consultant – Manufacturing & Industry 4.0 - ID AS060919

### The Company

Our customer provides leading-edge tools, technologies, software and services for the global construction sector. It is a multicultural workplace with 127 different nationalities committed to global teamwork. Global IT within the company is a truly global team with main hubs in Buchs (Switzerland), Kuala Lumpur (Malaysia) and Plano/Tulsa (USA). All locations have highly competent teams who work very closely together. They are known for their focus on sustainable value creation by translating latest IT innovations into value creating solutions & services.

Currently, we are looking for an 'Senior Global IT Proces Consultant (m/f/d)' in Switzerland.

### Responsibilities

- You will support our vision of smart digital manufacturing step by step
- In line with our business community you will define, deliver, and run solutions contributing to our vision
- You will be responsible for leading and supporting end-to-end implementations of new business solutions based on latest technologies, e.g. SAP S/4HANA, SAP Business ByDesign, and platforms like MS Azure and AWS.
- Following new trends surrounding Industry 4.0, analysing their values, and implementing them are additional parts of this innovation leading role

## Requirements

- Master's degree (or equivalent) in Information Systems, Computer Science, or in a related field (PhD is a plus)
- 5+ years of relevant work experience in the area of Manufacturing and Industry 4.0
- Willingness to work closely with business counterparts on one of the most dynamic and diverse IT environments
- Entrepreneurial attitude – taking responsibility in understanding topics, owning them and delivering success
- Affinity for leading edge technologies in the area of Industry 4.0
- Fluent in English (verbal and written), German is a plus

## What we offer

- Excellent company culture which stands for an ambitious but caring working environment.
- Great opportunities to develop your career with a global player and international innovation driver.
- Competitive salary and a wide range of benefits, these may include safety and healthcare programs or a free in-house gym.
