

Electronics Technician (m/f/d) - ID AS221019

The Company

Our customer is a global leader in pain management. Their purpose is to change lives for the better – and innovation is their passion. They're driven to seek effective, life-changing medicines and solutions for patients with severe diseases and high unmet medical needs. They create a better future for their patients - worldwide. With them, you can freely develop your passion and ideas to drive innovation and improve the lives of their patients. Challenges become possibilities and you can shine with your passion and your ideas.

Currently, we are looking for an 'Electronics Technician (m/f/d)' in North Rhine-Westphalia.

Responsibilities

- Independent error analysis in case of faults as well as initiation and / or implementation of suitable measures for fault elimination
- Independent support of manufacturing facilities, facilities and various control systems
- Maintenance and repair tasks on equipment, devices and equipment of a modern pharmaceutical production facility
- Documentation of all work according to specifications
- Setting up PC and PLC controlled production facilities
- Implementation of functional checks and commissioning of new plants or after repair measures

Requirements

- Completed vocational training as an electronics technician or mechatronics engineer for industrial engineering, automation technology, equipment and systems engineering or comparable subject area
- Practical experience in the maintenance of a pharmaceutical manufacturing process or related industrial manufacturing; Basic knowledge or experience with 'good manufacturing practice' (GMP) is an advantage
- Knowledge and experience with programmable logic controllers and drive / control technology; Good IT-Skills
- Willingness and abilities to carry out simple mechanical repairs on the machines to be supervised independently
- Good knowledge of German in speaking and writing; English skills are an advantage
- Teamwork and a very conscientious, responsible and service- or problem-solution-oriented way of working
- Willingness to flexible work assignment (eg shift work, weekend work)

What we offer

- Excellent company culture which stands for an ambitious but caring working environment.
- Great opportunities to develop your career with a global player and international innovation driver.
- Competitive salary and a wide range of benefits, these may include safety and healthcare programs or a free in-house gym.
