

## Systems Engineer (m/f/d) Checkpoint, Cisco, Nexus ID AS131119

### The Company

Our customer is Europe's leading vendor independent IT-service provider with 15000+ employees' worldwide and global sales of £ 4.35 billion (2018). They are a leading advisor in IT strategy, and focus on the implementation of most appropriate technology, performance optimization and infrastructure management.

Currently, we are looking for a Systems Engineer (w/m/d) with focus on Checkpoint, Cisco and Nexus in Lower Saxony, Germany.

### Responsibilities:

- Together with your colleagues, you set the operation of a homogeneous Firewall infrastructure of the manufacturer Checkpoint in 2nd and 3rd level support.
- You configure various network components (routers, switches, DWDM systems, NX-OS,IOS).
- You analyze network problems and troubleshooting for your customers.
- You perform troubleshooting (Checkpoint, VPNs) using standard tools (Spectrum, Splunk, Command, DS-View, Console).

### Requirements

- You have successfully completed your training in computer science or have a comparable qualification.
- You have at least 1 year of work experience.

- You are experienced in the field of routers, switches and overarching technologies like wireless LAN and / or proxy systems.
- You have more than 1 year of practical experience in at least one of the above Technologies (Checkpoint Firewalls / Cisco NEXUS).
- Checkpoint certifications such as CCSA / CCSE or equivalent are desirable
- Expertise and a Cisco Certification CCNA Routing & Switching.
- In addition, you communicate effectively in German and comfortable to travel to other locations, to get involved in a variety of topics and projects.

#### **What we offer**

- Excellent company culture which stands for an ambitious but caring working environment.
- Great opportunities to develop your career with a global player and international innovation driver.
- Competitive salary and a wide range of benefits, these may include safety and healthcare programs or a free in-house gym.
